2004-05 AODA and tobacco prevention grants announced

MADISON—State Superintendent Elizabeth Burmaster announced awards of more than \$5 million in grants to 112 school districts for the development and expansion of districtwide comprehensive Alcohol and Other Drug Abuse (AODA) programs.

“The devastating effect of drugs and alcohol, putting children at risk of not succeeding in school and in life, must be addressed at all levels of our society,” said Burmaster. “These grants will allow schools to address needs in the area of drug prevention and education through peer programs, mentoring, family and community awareness, and staff development activities.”

Grants target K-12 AODA prevention curricula, as well as prevention and early intervention programming, as part of a comprehensive school health program that includes parent and community involvement and education. The Department of Public Instruction awards the biennial grants on a competitive basis.

In addition to the AODA grants, this is the third consecutive year the DPI is distributing school tobacco prevention and control program grants as part of a statewide effort to reduce youth tobacco use. More than \$330,000 in grant funds has been awarded to 28 school districts for 25 statewide tobacco prevention projects. Funding for this program is provided through the Wisconsin Department of Health and Family Services-Tobacco Prevention and Control Program. This grant program focuses on the Center for Disease Control’s Guidelines for School Health Programs to Prevent Tobacco Use and Addiction. Priority areas include collaboration with community tobacco coalitions, access to cessation and education for tobacco users as well as youth leadership/advocacy.

A list of school districts and cooperative educational service agencies receiving awards follows.
